COMPANY PROFILE

Differentiators

We help companies leverage technology to accelerate their growth and profitability. We partner with our clients throughout implementation and on an ongoing long-term basis, helping them focus on being more strategic in their use of their business software systems.

1. We provide business consulting services to streamline processes and increase efficiencies.
2. We help clients implement the right ERP solution to automate financial and operational processes.
3. We help clients select and implement the right CRM solution to integrate and streamline sales, marketing and customer service functions.
4. We use proven implementation methodologies that meet our client's needs and assures that your project is on time and on budget.
5. We assist clients with Business Performance Management solutions by leveraging the best of breed enhancement products including Microsoft Power BI, Solver BI360, Jet Reporting and Adaptive for real-time business intelligence, reporting and analytics.
6. We provide ongoing value through our consulting and help desk support services, monthly customer updates and training opportunities to assure that our clients maximize their use of their business software systems.
7. We host annual one-on-one "Business Review" meetings with our clients to ensure their systems are aligned with their company goals and objectives. As their goals and objectives change, there are typically opportunities to leverage additional features that they may not know they have or functionality that they didn't know existed.

"The transition Micro Force designed to move from thirty databases to just one was a big, big move for us. Micro Force is easy to work with. They are large enough to have the technical expertise, but they're small enough to be responsive I've never seen a more organized or structured or disciplined project management process!"

- CFO
The Blue Man Group

"For more than ten years, Quality Metal Stamping has relied on Micro Force guidance and expertise for network and programming support, particularly with out Great Plains software Micro Force's staff is second to none in their expertise, professionalism and quality of service to their customers."

- Operations Manager
Quality Metal & Stamping LLC

"Micro Force came in and did a wonderful job. Their response time is great, and they are someone we can rely on. They do a great job of laying out the scope a project and how long it will take. Micro Force is a pleasure to work with."
